

## **Office of Ministerial Formation Certificate in Supervision**

A key to formational theological field education experiences is the level of engagement the student makes with her or himself, his or her supervisor, the context for ministry and the arts of ministry. Guided engagement is the purview of the supervisor-mentor and combines a diverse set of skills. We invite you to grow in the various dimensions of supervision and mentoring and earn a Certificate of Completion in Supervision. Complete the certificate by attending one workshop addressing each of the following eight themes. One two-hour workshop will be offered bi-monthly. Some will be also offered in various parts of North Carolina. Complete the certificate at your own pace.

- Community of Practice Theory and the Power of Mentoring
- Adult Learning Theory and the Power of Dialogue
- Theological Reflection within Field Education
- Vocational Discernment
- Leadership Formation and Pastoral Imagination
- Coaching for Ministerial Formation
- Encountering Difference Constructively
- Spiritual Direction and Discipleship
